Map filed JUL 01 1996

The applicant **Brady Power Partners**, hereby make application for permission to change the **Point of Diversion** of water heretofore appropriated under **Permit #57244**

1. The source of water is **underground (geothermal)**
2. The amount of water to be changed **5.0 cfs**
3. The water to be used for **industrial and domestic (geothermal power)**
4. The water heretofore permitted for **industrial and domestic (geothermal power)**
5. The water is to be diverted at the following point **proposed well 27-1, SW/4 SW/4 Section 1, T22N, R26E, at a point from which the SW corner Section 1 bears S 49°53'30" W 1119.0'**
6. The existing permitted point of diversion is located within **production well 56A-1, SW/4 NW/4 SE/4 Section 1, T22N, R26E, having a bearing S 05°12'55" W, 1919.80' from S/4 corner Section 1.**
7. Proposed place of use **Brady Power Partners Geothermal Power Plant, SW¼ SW¼ SE¼ Section 1, T22N, R26E, MDB&M**
8. Existing place of use **Brady Power Partners Geothermal Power Plant, SW¼ SW¼ SE¼ Section 1, T22N, R26E, MDB&M**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **geothermal production wells and piping to power plant facilities and injection wells**
12. Estimated cost of works **Production wells/wellfield: \$10 million**
13. Estimated time required to construct works **one month to one year**
14. Estimated time required to complete the application of water to beneficial use **two months to one year.**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use and manner of use of the geothermal fluid heretofore granted under Permit 57244 is issued subject to the terms and conditions imposed in said Permit 57244 and with the understanding that no other rights on the source will be affected by the change proposed herein.

This permit is issued subject to existing rights. It is understood that the amount of geothermal fluid herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount actually placed to beneficial use. It is also understood that this right must allow for a reasonable decrease of fluid pressure and heat. The well shall be equipped and maintained to prevent any waste of the geothermal fluid. Accurate measurements must be kept of discharge of the production well and the amount of fluid injected into the injection well to determine the total amount of fluid diverted and consumed for a beneficial use.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The production and injection well are to be cemented from the producing levels to the surface to protect fresh water zones. This permit is issued subject to the condition that only geothermal fluids are to be diverted and used beneficially for heating purposes and fresh, cold water aquifers are not to be diverted. The used geothermal fluids are to be returned to the source via the injection well. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A report for this well must be filed under this permit describing the amount of geothermal fluid diverted and consumed to a beneficial use for the duration of this temporary permit. This report must detail the amount of fluid produced, injected and delivered to Gilroy Foods, Inc.

The total combined withdrawal of the geothermal fluid under Permits 57238, 57239, 57240, 57241, 57243, 57245, 57286, 57287, 57288, 57289, 57290, 57291, 57292, 57293, 57295, 57296, 57297, 60930, 60931, 60932, 60933, 60934, 62118, 62121-T, 62122-T, 62123-T, 62124-T, 62125-T and 62126-T shall be limited to 19,572.0 acre-feet per year withdrawal but the total consumptive use of the geothermal fluid is limited to 4,276.0 acre-feet per year. The State Engineer does not waive the right to make a determination of incidental fluid losses at any time and impose additional conditions thereto. This temporary permit is further issued subject to the provisions of NRS 533.372(1) and with the understanding that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

This temporary permit is further issued subject to the agreements executed by and between Gilroy Foods, Inc. and Brady Hot Springs Geothermal Associates dated December 18, 1987; Gilroy Foods, Inc. and Nevada Geothermal Power Partners, Limited Partnership dated February 1, 1991; and the State Engineer's Ruling No. 3894 dated June 26, 1992.

This permit is issued with the understanding that the Monitoring Plan, which is Exhibit A of the Stipulation between Brady Power Partners and Gilroy Foods, Inc. dated June 21, 1996, will continue to be implemented. Any modification of this monitoring plan must be submitted and approved by the State Engineer.

The issuance of this permit expires Temporary Permit 62282-T.
(CONTINUED ON PAGE 2)
